

What is 'The Connection'?

The Connection is a new addition to our website that has two parts: [Where Are They Now?](#) and [Texas Prospects](#).

The [Where are They Now?](#) section is designed to keep up with Texas wrestlers that have already started college. There's a male and female section that can be updated by the college wrestler, their parents, or their coaches. This will help us keep up with what's going on with our old friends. We need your help making sure that we have updated information. If you have information about an athlete that we don't have listed, please email us at info@txusawrestling.com.

In the [Texas Prospects](#) section you can add and update your personal Student Athlete Biography. You can put in personal information, academic triumphs, and your athletic profile. In the future, we will have a printable form you can fill out that will give you an idea of what kind of info to include. College coaches will be using this page as a recruiting tool. It is the responsibility of the athlete to keep this updated. It's an easy way to promote yourself as an athlete and as a student to colleges across the country.
